SUMMARY

Open-source-driven Computer Science undergraduate and full-stack developer with hands-on contributions to Fastify and Microsoft Terminal. Experienced in building scalable web applications using React, Node.js, and REST APIs, with strong problem-solving skills and hackathon experience. Actively building SkillSnap, an AI-powered portfolio and career roadmap platform. Thrives in real-world codebases, collaboration, and high-ownership engineering work.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science Engineering
Engineering College Bikaner (ECB), Bikaner, Rajasthan
2024 – 2028

Skills

- **Languages :** C++, JavaScript (ES6+), HTML5, CSS3
- **Frameworks & Libraries:** React.js, Node.js, Express.js, Vite ,REST APIs
- **Databases:** MongoDB, MySQL
- **Tools:** Git, GitHub, Postman, VS Code, Vercel, Render, Netlify
- **Core CS:** Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks
- **Other:** Problem-solving, Debugging, Responsive UI (Tailwind CSS)

OPEN SOURCE CONTRIBUTIONS

- **Fastify:** Fixed flat route printing (`printRoutes({ commonPrefix: false })`) and improved tests (#6275)
- **Fastify:** Added ESLint max-len rule for consistent code quality (#6269)
- **Fastify:** Expanded benchmark table to include more frameworks (#6326)
- **Axios:** Fixed bugs and improved performance
- **Microsoft Terminal:** Implemented dynamic WSL detection and environment change handling

PERSONAL PROJECTS

Event Management System | React, Node.js, Express.js, MongoDB | https://github.com/riyap03/Event_management_system.git

- Developed a full-stack web app for organizing events with comprehensive CRUD operations (Create, Read, Update, Delete) for event listings, user registrations, and notifications
- Integrated real-time updates using Socket.io and secure authentication via JWT, supporting up to 100+ concurrent users in testing
- Deployed on Vercel with responsive UI via Tailwind CSS, enabling seamless event scheduling and admin dashboards

SkillSnap | Portfolio & Career Roadmap Web App | React, Node.js, Tailwind CSS | <https://github.com/riyap03/Skill-Snap.git>

- Built full-stack app for generating developer portfolios with live preview, emoji support, and one-click PDF export
- Added curated web development roadmaps and tech stack guides for learning journeys
- Implemented secure JWT authentication and REST APIs for user data management

QueryChase AI | Document Query Platform (HackRx 6.0) | React, Node.js, Express | <https://github.com/riyap03/Query-Chase-Clean.git>

- Developed web app for natural language queries on PDF documents with optimized file-handling backend
- Designed scalable Express.js backend using Multer for parsing and dynamic responses
- Delivered functional prototype in competitive hackathon

SecurePass | Console Password Manager | C++, File I/O, OOP | <https://github.com/riyap03/SecurePass.git>

- Created CLI-based manager with master password system and XOR encryption for secure storage
- Added search, view, and persistent file storage functionalities
- Applied OOP principles for modular code structure

ACHIEVEMENTS

- Grand Finalist – Hackshastra National Hackathon, selected among 2,000+ participants; evaluated by industry judges.
- Built QueryChase, an AI-powered document query platform during HackRx 6.0 Hackathon.
- Qualified for State-Level Spell Bee.
- Training & Placement (TNP) Student Coordinator – coordinated placement drives and recruiter communication.
